Result of the Canadian Elections Yesterday.

**CANADA.**  
**THE ELECTIONS.**  
Toronto, June 6.—At the general elections in the province of Ontario yesterday, Mowat's administration was sustained.  
Of 80 constituencies heard from 51 returned ministerialists, 27 opposition, 2 independent. All the members of the government were re-elected, also Morris and Meredith, leaders of the opposition.

**FRANCE.**  
**OLIVER AND THE ACADEMY.**  
Paris, June 6.—In consequence of the persistence of Oliver in his refusal to modify the draft of the speech which he proposed to deliver on the occasion of the reception of Henri Martin, the historian, into the academy, the academicians, by a vote of 13 to 12, decided to commission Marmier to make the reception speech.

**RUSSIA.**  
**EXPEDITION AGAINST TORCOMAN.**  
St. Petersburg, June 6.—The Russian expedition against Torcoman will leave Tikhvidar to-day. It consists of 2,800 cavalry, sixteen battalions of infantry and thirty-six guns.  
**FIRE.**  
There were three more small fires at Fern on the 2nd and 3d of June.

**THE EGYPTIAN QUESTION.**  
**GERMANY'S COURSE.**  
London, June 6.—It is said that Germany has informed England and France that she leaves to them the political part of the Egyptian question and desires only to defend the financial interests of German subjects.

**INDIA.**  
**A PROTEST.**  
Singapore, June 6.—According to telegraphic instructions from London, the governor of Labuan, with two men-of-war, has visited Landakan Bay, Borneo, to protest against any attempt to hoist the Spanish flag there.

**ITALY.**  
**RELIEF.**  
Rome, June 6.—The chamber of deputies has voted 50,000 liras for the relief of sufferers by the eruption of Etna and inundations of the Po.

CRIME AND CASUALTY.

**Felix McCann's Tight Rope Performance at Norwich, N. Y., To-day.**

Norwich, N. Y., June 6.—Felix McCann was hanged at 11.30 to-day for the murder of J. Morris Hatch at Higgin Hollow, Sherburne, December 3d, 1878.

His dying words were asking forgiveness for all his sins and granting forgiveness to all his enemies.

After hanging sixteen minutes, McCann was pronounced dead.

Only thirty-one persons, including Sheriff Hill and other officials, were present.

There were 10,000 persons in town and most of them surrounded the court house green.

**Metecological.**  
Washington, June 6.—Indications: For the Tennessee and Ohio valley, rising barometer, warm southerly winds, becoming variable and clear or partially cloudy weather, with local rains, and lower temperature later, and followed in western portion by falling barometer. For lower lake region, rising barometer.

From Yesterday's Second Edition.

WASHINGTON

THE NEW APPROPRIATION BILL.  
Washington, June 5.—The House today passed and the Senate agreed to-day in the House, incorporating the bill known as the Morrill amendment, providing for the repeal of certain laws regulating the payment of pensions and directing the secretary of the treasury to pay out for arrears of pensions the remainder of the \$10,000,000 which have been held as special fund for the redemption of fractional currency. The bill also provides for the salaries of officers which have been created since the passage of the act of 1875, and includes the necessary appropriations for the different bureaus and other major provisions. No general legislation other than that mentioned is included.

NOMINATIONS.

The president has nominated Simon B. Conover, of Florida, to be collector of internal revenue, and Charles L. Kier postmaster at Shelby, O.

THE FITZ JOHN PORTER CASE.

The following message from the president was received by both houses to-day:  
I transmit herewith the proceedings and the report of the officers convened in the case of Fitz John Porter. The report of the board was made in March last, but the official record of the proceedings did not reach me until the 31st of May. I have given to this report such examination as it has been in my power to give, and in the absence of legislation, I act upon the recommendations of the board for the removal of Porter from the service, and for such measures as, in your wisdom, shall seem expedient and just.

IMPORTANT OPINION.

The attorney-general decides that obligations soluble in merchandise and used for circulation came so evidently within the misconstruction intended to be remedied by the act of February, 1875, as to subject them to a tax of 10 per cent. The act prescribes that every person, firm, association, other than national bank associations, and every corporation, state bank or state banking association shall pay a tax of ten per centum on the amount of their own notes used for circulation and paid out by them.

THE FOUR PERCENTS.

Washington, June 5.—Subscriptions to four percent refunding certificates since yesterday's report, \$458,410.

CONGRESSIONAL.

**SENATE.**  
Washington, June 5.—By a vote of yeas 28 to nays 18, the bill reported yesterday by Mr. Bayard, from the judiciary committee, relating to juries and to the repeal of sections 801, 820 and 821 of the revised statutes was taken up.

Mr. Hampton, after briefly supporting the bill, spoke upon general political issues.

HOUSE.

More than an hour was consumed this morning in consideration of the bill reported from the committee on printing for the election of a congressional printer, but was not admitted, a point of order being raised that it was not such a bill as the committee was privileged to report at any time.

Atkins reported the legislative, executive and judicial appropriation bill and moved that it be printed and recommitted.

Hawley offered an amendment to the motion instructing the committee on appropriations to report the bill substantially in the form of the legislative appropriation bill last agreed to, excluding therefrom all general political legislation and all appropriations for judicial expenses.

Mr. Atkins thereupon withdrew the bill.

The house then resumed the business of the morning hour.

The president's message transmitting the record in the Fitz John Porter case was referred to the committee on military affairs.

The legislative appropriation bill was again reported and recommitted.

CRIME AND CASUALTY.

**A NECKTIE PARTY.**  
Chambersburg, Pa., June 4.—Peter, alias "Peachy" Swinger, colored, who murdered John Anderson, colored, at a ball here the night of December 11th last, was hanged in the jail yard to-day.

Upon reaching the scaffold, Swinger himself placed the rope around his neck. The sheriff had him remove it to allow him to make any remarks he wished.

He then said whisky and bad company brought him to this, and asked all to abstain from them. He thanked the sheriffs attendants for their kindness, said he was ready and again placed the rope around his neck which the sheriff again had removed.

After prayer the cap was placed over his head, the rope adjusted, the trap sprung, and at 11.15 he was pronounced dead.

**BENNETT'S SENTENCE.**  
New York, June 5.—Debnogio M. Bennett, the convict convicted on the charge of sending obscene matter through the mails, has been sentenced to 10 years.

THE WAR IN AFRICA.

**A White Woman Divorced from her Negro Husband.**  
The suit for divorce and alimony brought by Catherine Rhodes against Robert Rhodes came up for a hearing before Judge O'Rourke, in the circuit court Thursday, attracting considerable attention from the fact that the defendant is an athletic Zulu, while the plaintiff is of undoubted white extraction, though she probably has some negro blood in her. The complaint recites that this marriage took place at Lima, O., in the fall of 1875, and the ground relied on in the petition is cruelty.

On this point some interesting testimony was adduced. Mrs. Sylvester Grey, a former neighbor swore that on one occasion the defendant took the plaintiff rudely by the arm and administered a volley of blows with a heavy board taken from a fallen fence; that her screams were frequently heard and marks of violence appeared on her face to such an extent that she was obliged to wear a veil to hide them. Mrs. Marks, another neighbor, had heard Rhodes quarrelling with his wife and the next day had noticed bruises on her person. Since these occurrences they had lived together. A divorce was granted to the plaintiff, and the case was continued until Thursday afternoon.

**Hobbs vs. Hobbs.**  
Julia A. Hobbs complains that Joseph R. Hobbs married her in 1864, and that since that time he has almost utterly refused to support her, and she had to do herself. She left him five years ago, and he promised to do better, but it's no go. She prays for absolute divorce and the custody of the two children. The case is in the superior court.

Mr. Hueston, the contractor for the Masonic Temple, arrived this afternoon with the necessary bond, and the papers are being drawn up in Coombs, Morris & Bell's office.

Jack Murray, under a four-years sentence for burglary, broke jail at Columbia City Wednesday night, and is now at large.

The Lechner-Freeze shooting match was postponed until to-morrow evening.

Spencer, Argo and Monner are taking in a barn raising to-day.

The commissioners are acting on road matters to-day.

A WORD IN EARNEST

Dr. Von MOSCHZISKER.

Success in any business or profession is not only gratifying to the individual who succeeds, but to all those with whom he may have dealings; especially so in that of a MEDICAL PRACTITIONER, who, in order to obtain such, must not only have SUCCESS, but continue DAILY TO DO SO, giving OCULAR demonstrations of his SKILL and JUDGMENT. It is true that a physician may sometimes obtain a transient "victory" by trivial operations (judiciously reported), or by the cure of some particular case, supposed to be incurable; but this is not what can be called an ESTABLISHED REPUTATION. There are, considering the number who practice medicine, very few REALLY GREAT MEN, still fewer in the body claiming to be SPECIALISTS. It is PROVERBIAL that in no PROFESSION is there MORE ILL FEELING or JEALOUSY, than in that of MEDICINE, and this is very common in what is called the "general PRACTITIONERS" against any one with any SPECIAL PRETENSIONS, I could fill many pages with amusing instances of the absolute IGNORANCE OF RESPECTABLE REGULAR PHYSICIANS in the treatment of SPECIAL DISEASES, SUCH AS ARE TREATED BY ME, that have come under my PERSONAL NOTICE in several places, but this is not my tale, as the illustrious JOAQUIN MILLER might remark in the premises. I have no desire to censure or to make myself the biographer of the BLUNDERERS of those who may be called my OPPONENTS. Having enjoyed for many years the friendship of MOST DISTINGUISHED MEMBERS OF THE PROFESSION, I can look with leniency now on the detractors of my LESSER LIGHTS. I enjoy the SUCCESSFUL PRACTICE of my PROFESSION, and find it made still more interesting by the COURSE I AT PRESENT PURSUE. Opposition to me on the part of those who neither UNDERSTAND my MOTIVES or my METHODS, will of course not at all affect that course, which was duly considered before it was adopted. I am often amused by what Dr. A. or B. had remarked this or that about me; men frequently, evidently not my PEERS, even in GENERAL, not to speak of MEDICAL or SPECIAL EDUCATION, a fact which was probably known to no one better than themselves. If my CRITICS, though I do not expect them to be conversant with general literature, will look upon the shelves of the New York, Boston, Philadelphia and Baltimore libraries, they will find some exhaustive works of mine on GERMAN and SLAVONIC literature that have entitled me to a name and seat among men of reputation and learning in the old and new world. As to my PUBLISHED MEDICAL WORKS, I shall say nothing. They have received, like my PRACTICE, sufficient praise. I have never YET FAILED in my PROFESSIONAL EFFORTS, and the more my opposition, the greater was my SUCCESS. I am fully COMPETENT to DEFY all who oppose me, and am perfectly able to do ALL I PROFESS. I have the RIGHT and TITLE to my profession from the most learned INSTITUTES of EUROPE, and my years of EXPERIENCE give me full confidence to speak authoritatively. I do not often fall when I take a case under TREATMENT, and the patient CARRIES out all my INSTRUCTIONS, and is regular in his attendance at my office. All who desire my medical services and the full benefit of my personal attendance on them, I take this opportunity to notify them they must not delay, but call at once.

## KANSAS PACIFIC RAILWAY

LANDS! LANDS!

## KANSAS TO THE FRONT!

The Leading Wheat State in the Union in 1878, and the Fourth Corn State—The Great Kansas Harvest in 1878, was Sold for the "Golden Belt."

The celebrated Great Belt to country, in the limit, section of Central Kansas, traversed by the Kansas Pacific Railroad. The following statement is taken from the report of the Kansas state board of agriculture for 1878:

WHEAT—Kansas raised in the Eleventh Wheat State in 1877 to the First Wheat State in the Union in 1878, producing 28,538,538 bushels of wheat, and 5,795,403 bushels spring wheat, total

32,315,341

Bushels Wheat with one-eighth of the state under cultivation. The organized counties lying in the Golden Belt of the Kansas Pacific produced 12,335,324 bushels, or over 40 percent, and including unorganized counties, fully 14,000,000 bushels, or 43 percent of the entire yield of wheat in the state, averaging 24 bushels to the acre, while the average for the state was 17 bushels per acre.

CORN—Kansas, the Fourth Corn State in the Union, in 1878, produced 89,374,371 bushels of Corn. Of which the Golden Belt counties produced 27,399,053 bushels, or 31 percent, nearly one-third of the entire yield of the state, with an equally grand showing in all other departments of agriculture.

The foregoing facts show conclusively why

20 percent of the increase in population in the state during the past four years; and 40 percent of the increase in this population during the past year; and 43 percent of the increased acreage of wheat in the state in 1878, belonged to the "Golden Belt."

A Farm for Everybody—45,000,000 acres—5,000,000 acres for sale by the Kansas Pacific—the best land in America, at from \$2 to \$8 per acre, one-quarter off for cash, or 6 or 12 years credit, 7 percent interest. It doesn't take much money to buy a farm on the Kansas Pacific; \$25 to \$50 will secure 30 acres on credit, or \$120 to \$250 in cash will buy a 100-acre tract.

Send to E. J. Gillmore, Land Commissioner, Salina, Kas., for the "Kansas Pacific Homestead," a publication which tells all about it. Homesteads in personal, soil, climate, products, stock raising, schools, mines, land explorers' tickets, rates, etc. It is mailed free to all applicants.

Read all you can gather about Kansas, and when you decide to start, be sure and start right by locating along the KANSAS PACIFIC RAILWAY.

Sixteen New Indictments Returned by the Grand Jury.

Fifteen of Them For Violation of the Liquor Law.

The grand jury this morning made its second report of the week, when sixteen indictments were returned, as follows:

One against John McChin and Jay Phillips, violation of the liquor law; 2 against Louis Hazard for same; 2 against Wm. H. Lindberg for same; 2 against George Koebel for same; 1 against Fred Boltz for same; 2 against Aug. Dukeman for same; 1 against William Heph for same; 1 for assault and battery.

Bench warrants were issued on all the above cases, the bond being fixed at \$50 in each case.

This makes twenty-three indictments returned thus far during the present session. After filing this report the grand jury again retired. Tomorrow they will report another batch of liquor indictments, and will then adjourn.

## READY FOR BUSINESS.

Excavations for the Temple and Opera House to Begin Next Thursday.

What the Contractors Have to Say.

The contractors for the new Masonic Temple and Opera House arrived yesterday afternoon, with a bond for \$25,000 signed by fifteen or twenty of the leading and most responsible citizens of Dunkirk, O., and certified to by the auditor at Dunkirk.

The bond was pronounced satisfactory by the building committee, and the contract was at once drawn up in accordance with the specifications, and sealed, signed, and delivered in the office of Coombs, Morris & Bell.

The firm is composed of Messrs. Hueston, Shannon, Johnston & Halderman. Messrs. Hueston & Shannon left for Dunkirk yesterday afternoon, and Messrs. Johnston and Halderman will return home this afternoon.

A SENTINEL reporter visited the contractors at the Mayer House and found them very agreeable gentlemen. They said that the buildings were now being removed from the lots by the authorities of Salem Church. The lots will be cleared by next Thursday, and excavations will then be begun.

Iron girders will be used, the contract price being \$82,500. The contractors will bring teams and a number of workmen from Ohio. The building will be enclosed by November 1st. In its construction about 1,300,000 brick will be used. The contractors say they will probably sub let some portions of the work.

## BREVITIES.

Duplein gets a new trial.

The Daily Sun has not yet resumed its regular issue.

Fred Boltz has received a number of very fine oil paintings, suggestive of the trials of the American sculler.

They are 1-meuse.

The grand jury made a most thorough and searching investigation into the Webb murder case, but obtained no new facts of importance. If there is any indictment, it will be against John Roe or Richard Doe.

Owing to severe illness Mrs. Warner, the prosecuting witness in the attempted outrage case of Louis Zain, was unable to testify before the grand jury this week. An indictment will probably, therefore, not be returned.

It is a perfect beauty and as light as a feather—a very large feather. It is twenty-nine and a half feet in length, twenty-two inches long and the entire weight of the boat including row lock, etc., is only thirty-four pounds. The shell is made entirely of paper, as is also the deck, the only parts made of wood being the very light framework and the washboard and working parts of the boat. The boat was built by E. Waters & Son, Troy, N. Y., and cost \$130. Fred received also a very fine pair of sculls as a present from the above company. Sculls were not included in the contract. The boat is on exhibition at the Occidental and will be until Sunday morning, when Fred will take it on the river and dedicate it. It's terrible hard work for Fred to let it hang there for two days, but the chances are that he can do it.

## OUTRAGED BY FRAMES.

An Atrocious Crime Perpetrated Upon the Person of a Boy.

(Special to Cincinnati Enquirer.)

Gallion, O., June 2.—Your correspondent has learned of a most horrible, brutal and atrocious crime committed by blue tramps a few miles north of this city on Saturday night. Among their number was a boy aged about fourteen, named Wilkins, upon whose person the vile wretches committed a nameless crime, and after satisfying their brutal passions threatened to cut his throat if he revealed the act. During their torture they twice stabbed their helpless victim in the back, but the wounds are not dangerous. After the nine villains had gone, the poor boy made his way to the city, where he met Officer Schuder and told him of the terrible outrage—that had been perpetrated on him.

An examination of his person revealed the truth of the boy's statement, but he was unable to describe the fiends who committed the outrage owing to the fact that he met them after dark. Young Wilkins was at once made as comfortable by the city authorities as his case would permit. This crime is one of the most dastardly outrages ever perpetrated in this vicinity, and could the citizens place their hands upon the villains, "Judge Lynch" would render a speedy sentence.

## Sixty Miles an Hour.

(Kansas City Times.)

Not long since it was announced by the managers of the Chicago and Alton Railroad that they would open up with the fastest trains that ever entered Kansas City, or any other, for that matter, and that they have more than made good their word by acknowledging by all who have inspected the beautiful "palaces on wheels," which have been rolling into and out of the union depot over the tracks of the new road. To the casual observer who has gazed upon the outside of these trains, or the traveler who has ridden over it, to Chicago, or St. Louis, it would seem that the acme of comfort, elegance and perfection in everything had been attained; but still the restless spirit of the company does not stop with what they have accomplished. They wish to place themselves in a position to enhance their capacity for making fast time if it becomes necessary to do so. Looking to this end, the Chicago and Alton made a contract some time ago with the Schenectady Locomotive Works for several powerful and swift engines for special service on the Kansas City end of the line.

An idea of the strength and speed which are combined in these "iron horses" may be imagined when it is understood that the contract provides that these engines will haul a train equal in weight to ten of Pullman's heaviest sleeping coaches (each one of which is about as heavy as two ordinary coaches), at any rate of speed required up to sixty miles an hour. The makers of these engines were furnished with exact information as to the grades and track

**KANSAS PACIFIC RAILWAY**

**LANDS! LANDS!**

**KANSAS TO THE FRONT!**

The Leading Wheat State in the Union in 1878, and the Fourth Corn State—The Great Kansas Harvest in 1878 was Solid for

The celebrated Grain Belt to country, in the limestone section of Central Kansas, traversed by the Kansas Pacific.

The following statement is taken from the report of the Kansas state board of agriculture for 1878:

**WHEAT.** Kansas raises from the Eleventh

Wheat State in the Union in 1878, producing 25,315,361 bushels of wheat, of which 403 bushels were exported; total,

**32,315,361**

Bushels of wheat, with only one-eighth of the total area cultivated. The grain raised in the Golden Wheat Belt of the Kansas Pacific produced 13,335,324 bushels, or over 41 percent, and includes all the reporting counties, fully 14,000,000 bushels, or 45 percent of the entire yield of wheat in the state, averaging 24 bushels to the acre, while the average for the state was 17 bushels per acre.

**CORN.** Kansas, the Fourth Corn State in the Union, in 1878, produced 63,324,971 bushels of corn. Of which the Golden Grain Belt counties produced 27,324,971 bushels, or 43 percent, nearly one-third of the entire yield of the state, with an equally grand showing in all other departments of agriculture.

The foregoing shows conclusively why 29 percent of the increase in population in the state during the past few years; and 40 percent of the increase in the population during the past year; and 43 percent of the increased acreage of wheat in the state in 1878, belonged to the "Golden Belt."

For the Geography—45,000,000 farms—5,000,000 acres for sale. The Kansas Pacific is the best land in America, at from \$2 to \$3 per acre, one-quarter of for cash, or on 6 or 11 years credit at 7 percent interest. It don't take much money to buy a farm on the Kansas Pacific; \$25 to \$50 will secure 30 acres on credit, or \$150 to \$200 in cash will buy it outright.

Send to S. J. Gilmore, Land Commissioner, at Salina, Kas., for the Kansas Pacific Land Commission, who will tell you about Lands, Homesteads, Pre-emption, Soil, Climate, Products, Stock Raising, and all the details of the Kansas Pacific. He will also mail you a full application.

Not long since it was announced by the managers of the Chicago and Alton Railroad that they would open up with the finest trains that ever entered Kansas City, or any other, for that matter, and that they have more than made good their word will be acknowledged by all who have inspected the beautiful "palaces on wheels" which have been rolling into and out of the union depot over the tracks of the new road. To the casual observer who has gazed upon the outside of these trains, or the traveler who has ridden over it to Chicago or St. Louis, it would seem that the age of comfort, elegance and perfection in everything had been attained; but still the restless spirit of the company does not stop with what they have accomplished. They wish to place themselves in a position to enhance their capacity for making fast time if it becomes necessary to do so. Looking to this end, the Chicago and Alton made a contract some time ago with the Schenectady Locomotive Works for several powerful and swift engines for special service on the Kansas City end of the line.

An idea of the strength and speed which are combined in these "iron horses" may be imagined when it is understood that the contract provides that these engines will haul a train equal in weight to ten of Pullman's heaviest sleeping coaches (each one of which is about as heavy as two ordinary coaches), at any rate of speed required up to sixty miles an hour. The makers of these engines were furnished with exact information as to the grades and track over which they were to perform the service, and the contract is void if they do not fill the bill in every particular. The cylinders are 18x24 inches, driving wheels five feet nine and a half inches, and immense boiler capacity. In height they stand about a foot and a half over any engine that has heretofore run into this city. The Alton people recognize in Kansas City a great and growing business center, and while they expect to largely increase their own receipts by coming here, they are proving by their acts that they intend to give the public the worth of their money. The enterprise and energy which is being displayed by the Chicago and Alton fairly sustains their brilliant prestige and justifies the best expectations of Kansas City, and is an assurance that both will go on hand in hand to prosperity and a glorious future.

Sound Doctrine.

(Churchman.)

The singing is a part of the worship, and adult persons who will not acknowledge in baptism their obligation to God and their allegiance to Him, cannot be supposed to worship Him whom they thus deny. Their singing, therefore, is without meaning, and though addressed to the Most High, it is but an empty form. It seems to be an indubitable fact that the praise which is addressed to the Almighty God in song is the praise of those who are singing. If they who sing do so without a thought of God, but only with a desire to please the men and women who are listening, their performance is an hypocrisy, and so it must be an offense to the Almighty.
